

M e m o r a n d u m

Date: July 15, 2010

To: Office of the Academy

Attention: Captain D. B. Newman

From: **DEPARTMENT OF CALIFORNIA HIGHWAY PATROL**
Office of Inspector General

File No.: 010.13424.A7146.11626.010

Subject: 2009 COMMAND PROPERTY INSPECTION REPORT

In accordance with procedures outlined in Highway Patrol Manual (HPM) 11.2, Materials Management Manual, and HPM 22.1, Command Inspections Program Manual, an inspection of your command's property, including vehicles and weapons, was completed by the Property Inspectors (PI) on August 26, 2009 – September 3, 2009. Using property records from the appropriate Offices of Primary Interest (OPI), the PI selected a random statistically-valid sample of property that was stratified across four property areas: general inventory control, telecommunications, fleet, and weapons (see Attachments B, C, D, and E). Additionally, the PI randomly selected items within your command and compared them to the appropriate inventory records. The complete command (office and units) property discrepancy count list is summarized in Attachment F.

According to the OPI inventory lists, the command and corresponding command units have a combined total property inventory population of 4,387 items. The statistically-valid sample at a 95 percent confidence level \pm 5 percent error rate provided a total sample size of 797 items. The stratified totals for the command and command units are summarized in Attachment G.

When comparing equipment recorded on the predetermined property inspection lists for the equipment located within the command and corresponding command units, 721 of the 797 were located. Ten items were unavailable for inspection due to employees being out of the office or items located at off-site locations; 60 items had been transferred to other commands; and 6 items (lawn mower, carpet shampooer, computer, double bay console, and two hand-held radios) could not be located. Furthermore, ten of the 721 require a correction be made to the property record. The property inspection results of the equipment recorded on the predetermined property inventory lists to equipment located at the command and corresponding command units are summarized in Attachment A.

Safety, Service, and Security

Office of the Academy
Page 2
July 15, 2010

When comparing equipment located at the command and corresponding command units to the OPI inventory lists, 311 of the 369 items reconciled. Fifty-seven items were not listed on the appropriate OPI inventory lists and one item requires a correction be made to the property records. The property inspection results of equipment located at the command and command units to the OPI inventory list are summarized in Attachment A.

I request your command research and investigate the discrepancies in accordance with departmental procedures outlined in HPM 11.2, Materials Management Manual, Chapter 8, Equipment, and work with the appropriate OPI(s) to rectify any variances. A Physical Inventory Adjustment Request, CHP 24, must be completed to adjust the inventory records. In order to verify the above listed discrepancies have been rectified, please submit a memorandum to the Office of Inspector General by October 21, 2010.

In accordance with the Governor's Executive Order S-20-09 to increase government transparency, this report will be posted on the California Highway Patrol's internet website, and on the Office of the Governor's webpage, located on the State's Government website.

The Office of Inspector General would like to thank your command for their assistance during this property inspection. If you have any questions or need additional information, please contact me or Roger Ikemoto, Senior Management Auditor at (916) 843-3160.

E. SANCHEZ, Captain
Interim Inspector General

SUPPORTING DOCUMENTATION

August 20, 2009

To: Joanne Morita (071)

From: Colette Bonar (091)

Please remove the Canon imageRunner 2800G copier from the 091C inventory. Service/maintenance contract expired, copier replaced. As directed by Mr. Stephen Ramirez on 07/22/09, the tag to this machine was removed and is affixed below. Copier transferred to and picked up by Supply Services Unit on 07/29/09, for electronic waste removal (copy of CHP 266, Credit Memo – Equipment, attached). If you have any questions, please contact me at (916) 376-3351.

Thank you,

A handwritten signature in cursive script, appearing to read 'Colette Bonar', with a long horizontal line extending to the right.

SUPPORTING DOCUMENTATION

Memorandum

091 (M)

Date: July 14, 2009

To: Telecommunications Section

From: DEPARTMENT OF CALIFORNIA HIGHWAY PATROL
Office of the Academy

File No.: 091.A10322.TP.3.memos.2009extenderinventory

Subject: 2009 ANNUAL INVENTORY OF RADIO EXTENDERS

This memorandum is a follow up to the annual inventory of radio extenders assigned the Academy. According to the inventory list, 405 radio extenders are assigned to the Academy. The Academy has completed the inventory and 399 extenders were verified to be at the Academy, however, six were not located. Of the six missing, two extenders (R67849 and R69162) were listed on the Academy inventory list in year 2007, assigned to cadet training. The four remaining missing radios, numbers R61373, R62456, R66077, and R67414 were not listed in the past Academy inventories, as far back as 2003.

The Academy has exhausted all efforts in locating the six missing extenders. Efforts included two e-mails to all Academy personnel requesting each staff member search his/her work area; two physical searches of Academy radio storage areas by the Supply Unit supervisor; a review of past transfer documents (CHP 266s); a review of the last five years of inventories by the Academy Operations Manager; a review of the last eight cadet class extender assignment forms; and directly polling staff. In addition, the Academy's two lieutenants also directed their staff to provide an extensive search their unit's work areas for the missing extenders. However, all efforts produced negative results in locating the six extenders.

In regard to extender numbers R61373, R62456, R66077, and ^{091M 091A 091M 390} ~~R67484~~, it would be beneficial if Telecommunications Section could provide the Academy with transfer documentation (CHP 266) noting the staff member who signed for and received these extenders. It would allow Academy to query information on the whereabouts of these extenders.

The Academy has attached a CHP 331, Radio Extender Adjustment Record for removing extender numbers R67849 and R69162.

D. B. NEWMAN, Captain
Commander

Sandy,
See attachment for signed credit memo.

Tony

>>> Sandra Coulter 8/24/2009 3:19 PM >>>

Hi Tony,

Do you have any information on #165599? This is not in my inventory.

Thanks,

Sandy

>>> Shon McAdoo 8/24/2009 2:07 PM >>>

Hi Shon,

Please may I ask about 2 more????

Thank you so much.

165577

165599

Thank you for your help.

Sandy

(201) Issued to officer

Comments

The image shows a document page where the text is almost entirely obscured by horizontal black redaction bars. The bars are of varying lengths and are placed across the page in a way that covers the majority of the content. Only a few thin horizontal lines of white space are visible between the bars, suggesting the presence of text underneath. The overall appearance is that of a heavily censored or redacted document.
